### Hot New NYC Hotels For 2008 !

**Trying** to book a decent hotel in the Big Apple is sometimes like winning Lotto. The hotel you want is never available and you end up in some low rent dump at ball breaking prices !

2008 is set to see some glitzy new offerings coming to New York that will put some travel fun back into the city.

The big buzz is Robert De Niro's new TriBeCa Hotel - the **Greenwich Hotel**. With its lantern lit swimming pool, a branch of LA's hot **Ago**

restaurant, handcrafted bricks and stunning wood floors, this is the hot NYC place to be seen in 2008.

Also in TriBeCa is the **Duane Street Hotel** (See Photo Above) while uptown is the stunning redo of the iconic **Plaza Hotel** complete with white gloved butlers and 24 carat taps. Favorite UK hotel the **Firmdale** is also set to jump the Atlantic towards the end of 2008. It aims to be NYC's greenest hotel- with eco everything- as well as one NYC's finest !
