## Duane Street Hotel Coming To Tribeca

Tuesday, October 30, 2007-8:23:25 AM

---

NEW YORK— The Duane Street Hotel is scheduled to open in the Tribeca section of New York early next month.

The Hersha Hospitality Management property will have 45 rooms. Designed much like lofts, the rooms will have high ceilings, tall windows that fill the rooms with natural light, hardwood floors and clean, modern décor.

Each of the rooms feature custom-designed residential furniture, natural wood and slate bathrooms with chrome and marble fixtures. Amenities include a work desk, high-speed and WiFi Internet access, 32-inch plasma TV with premium cable and a CD player/clock-radio with MP3 hook-up.

Additional amenities include in-room spa services from Euphoria Spa, floral arrangements from Flora-tech in all 45 rooms, complimentary chocolates from Jacques Torres, and access to in-room dining from local restaurants.

In addition, the Duane Street Hotel will be home to the 40-seat 'beca Restaurant, which will also provide room service for the hotel.

Located at 130 Duane St. at Church Street, the six-story hotel was designed by the architectural firm Gene Kaufman Associates and interior designer Paul Vega.
